Dear EPA Region 10,

The Portland Harbor Superfund site needs an aggressive cleanup that protects people and wildlife for the long-term. In response to your Draft Plan, I feel you need to consider the following:

- 1 The overall goal of the Superfund cleanup should be to lift the fish advisory related to toxic pollutants found in the Portland Harbor, Willamette River.
- 2 The most highly contaminated sediment should be removed to achieve this goal.
- 3 There is too much Monitored Natural Recovery.
